Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a process for making figures/stripes on an article including,

preparing an article as a substrate;

wrapping a portion or portions of the surface of the substrate with a fiberglass fabric drenched with resin such that the figures/stripes are to be made on the portion or portions;

placing at least one covering material forming the figures/strips on an exterior of the fiberglass fabric, thereby forming a wrapped body of the fiberglass fabric, the covering material and the substrate, wherein the at least one covering material is a thin or slender body independent from the substrate;

using a binding means to bind the outer circumference of the wrapped body such that the binding means wound around the wrapping body is to harden and pattern the fiberglass fabric;

taking off the binding means after the wrapped body is hardened and patterned such that the fiberglass fabric is hardened and patterned to form an inner layer and the covering material is positioned on the outer face of the inner layer;

painting an outer resin on an exterior of the wrapped body;

forming a transparent hardening layer around the wrapped body by hardening the outer resin; and

buffing the hardening layer to thereby complete the article having the figures/stripes of the covering material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
